## Mk 4

# Parts List

01905 821569

[info@worcesterclassicspares.com](mailto:info@worcesterclassicspares.com)

2020-2021  
Edition

Dear Customer,

This price list outlines all the parts we can supply for the Jaguar Mk 4 and some parts for the earlier SS cars. These parts are mostly new reproduction. We try to hold as many parts in stock as possible, but some items are bought to order. If there is an item you require that is not listed, please let us know and we will make every effort to locate it for you and may be able to supply a used original part from our large selection.

Orders can be placed by email or over the phone, when ordering please state our reference numbers (which appear on the far left of the page) and **provide details of your car – the make, year, chassis and engine numbers, body style and whether it is right or left hand drive**. If you are aware that the car has been modified or fitted with non-original parts please let us know as, unless notified, we will assume it is as original.

The prices quoted are per item unless otherwise stated and are all in GBP. Whilst every effort will be made to adhere to the prices shown, we do reserve the right to make changes if necessary without prior notice. Any such change will be made known to the customer before sending out the order.

Payment can be made by debit or credit card (we are licensed to accept Switch, Visa and MasterCard) or by bank transfer. We also accept Paypal for orders of £100 or less.

Parts can be shipped to any part of the world using post or carriers on a door-to-door service - please see our terms and conditions. Orders to E.U. countries are currently subject to VAT at 20%.

There are photos of most of the parts in this price list on our **website**, along with limited quantity items and Jaguar literature. The website has a history of the company, photos of customer's cars and a new restoration blog. New contributions to our website are warmly welcomed.

Due to family commitments, Michael will continue to work from home, providing technical advice over the phone, while I will be in the office. If you need to speak to Michael, please call the office and ask for a ring back, unless he has said otherwise. **Please note that opening hours are 1pm to 5pm on weekdays.**

We are still looking to find a buyer for Worcester Classic Spares and hope to find someone who can run the business full time. In the meantime my father and I will continue as best we can and thank you for your support.

Anna Whitworth  
August 2020

## PANELS

P. 45	'52043A'	REPLACEMENT METAL SIDELIGHT HOUSING - to be welded onto front wing - metal pod/housing only	£147.80
-------	----------	---	---------

# Terms & Conditions

## USED PARTS

Although as good a description as possible will be given of the second-hand items, everyone's idea of condition varies. If there is a known or obvious fault with the part, then the prospective customer will be made aware of it. **However, if we supply any second-hand part, be it a single item or a mechanical or mechanised part, or any item that consists of component parts, which is later found to be faulty, unfortunately we would be unable to offer a refund or a replacement part. By the very essence of their nature, second-hand parts are always an unknown quantity, and no guarantee can be given to their condition. It is at the owner's risk that such items are purchased.**

## DISCOUNTS

We regret that we cannot give discounts, however large the order or regular the custom. We feel it is fairer to price the parts as competitively as possible to give a fair deal to all our customers, some of whom prefer to order all the parts they need at one time, whilst others prefer to order over a period of time.

## LIABILITY

**Liability extends only to replacement free of charge, or a refund, in respect of items incorrectly supplied or found to be faulty (not including second-hand items), and notification must be received within 14 days of despatch of goods, so please check your order as soon as you receive it. We regret we cannot give refunds on parts correctly supplied but no longer required.**

Please be aware that it is not uncommon for a car to have been fitted with non-standard parts at some stage, so if the new part you receive is not the same as the part on your car, do not automatically assume the new part is wrong. Let us know if you have a problem and we will try to sort it out.

## POSTAGE

We aim to send most parcels out using a **tracked service** as this makes for a more secure service, tracking numbers are provided to customers on request.

For small or medium sized parcels sent within the UK, and for parcels weighing less than 2kg being sent abroad, we use Royal Mail's tracked 48 hour service.

For larger parcels, and parcels weighing more than 2kg being sent abroad, we use DPD or Parcelforce via the Parcels2Go website.

If a customer specifically requests a next day service this can be investigated, and we are also happy to facilitate customers who wish to arrange their own carrier.
